

Discover the **Living Concept Collection** from Vaniti House – a caring range of flexible modules that lets you create your own customised combination of bathroom support rails.

The collection includes both modular systems and individual rails, giving you endless possibilities to design a bathroom that's supportive, safe, and beautifully personal.

Each element can be adapted with ease, making it simple to match your needs while keeping the look of your bathroom just the way you like it. With the grab bar series, you can use them on their own or link them together into a full system – giving you the freedom to design support that grows with you.

THE SUPPORT YOU
NEED, THE WAY YOU
WANT IT.

INTRO

At Vaniti House, we believe support and style should go hand in hand.

The **Living Concept Collection** has been created with flexibility in mind – giving you the freedom to design support rails that suit your space, your needs, and your style.

Beautifully designed grab bars are hard to come by, and this range fills that gap by combining safety and style.

Whether used at home, in hospitality, or in professional projects, the collection makes it possible to create bathrooms that are supportive, adaptable, and beautiful.

Our goal is to help shape bathrooms that offer care, comfort, and confidence, without compromising on design.

Leigh & Kath

xoxo
