TRUE WELLNESS IS NOT DEFINED BY
LUXURY ALONE. IT IS DEFINED BY HOW
A SPACE MAKES SOMEONE FEEL

INTRO

The Mecca Care Collection is one I am incredibly proud to introduce.

What drew me to this collection was the incredible choice it offers. From its extensive range of beautifully designed products to its exceptional selection of luxury finishes, including durable PVD options, it opens up endless possibilities for creating bathrooms that are both functional and beautiful.

For too long, accessible bathrooms have been associated with clinical spaces and limited design choices. I wanted to offer a collection that proves accessibility can be both beautiful and luxurious.

Whether for a home, hotel, leisure development, healthcare facility or commercial project, Mecca Care proves that accessibility can be beautifully integrated into any space without compromising on design.

Leigh-Anne

MECCA CARE MAKE YOUR OWN

Mecca care 'make your own' breaks the limitations of fixed grab rail combinations, empowering users to go beyond a set product list and freely select components based on their space, needs, and design preferences. Whether it's a residential bathroom, a commercial setting, or aged care living, this system allows for personalized configurations that reflect individual lifestyle and spatial needs.

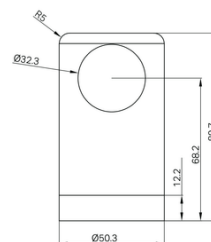

MAKE YOUR OWN – END BRACKET

Mecca Care Make Your Own 32mm Grab Rail End Bracket.

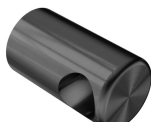

The Mecca Care End Bracket is designed for 32mm grab rails, allowing you to create custom rail configurations or extend existing Mecca Care grab rails. It supports loads up to 150kg when correctly installed, complies with AS 1428.1, and is supplied complete with mounting brackets, screws and wall plugs.

MECCA CARE TOILET BACKREST

NRCR0001CH
Chrome
R 5490.00 Incl Vat

Mecca Care Toilet backrest 560 x 322mm

The Mecca Care Toilet Backrest adds a soft, cushioned layer of comfort to accessible toilets, making everyday routines feel easier, gentler and more supportive. Designed for wheelchair-accessible public toilets, it complies with AS1428.1 requirements and features a robust 1100N load capacity. The backrest fits easily around most toilet cisterns and incorporates a large wall mounting bracket that distributes forces across wall studs, providing exceptional strength, comfort and long-term durability.

Approved by the Australian standard 1428.1-2009 (Grab Rails) with over 150kg weight rating.
